### Laboratory Leadership in a Time of Change

This paper examines some of the accepted truths about leadership characteristics, shares anecdotal laboratory leadership scenarios, and discusses the importance of change management, and maintaining an organization-wide culture of innovation and openness to change.

### Extending the Laboratory's Reach to Meet Healthcare's New Paradigm

With healthcare organizations shifting to value-based alternative payment models, and the need to measure patient outcomes, this white paper will introduce terms and concepts used by other departments, such as IT and finance, that can benefit laboratory professionals in cross-departmental collaborative analytics projects.
